

Overview

Unit 1: Introduction to Psychology

Topics:

- History of Psychology
 - Research and Methods
 - Ethics
-

Learning Objectives:

By the end of this Unit, you will be able to:

1. Discuss empiricism to show that daily life is science
 2. Explain how scientific research addresses questions about behavior.
 3. Review the concept of science as only one approach and only one way to explain nature and behavior.
-

Tasks:

- Read the Learning Guide and Reading Assignments
- Participate in the Discussion Assignment (post, comment, and rate in the Discussion Forum)
- Complete an entry in the Learning Journal
- Take the Self-Quiz
