

Learning Guide Unit 3

Discussion Assignment

Your posts should cover the questions below in full, and be at least 300 words long. Then reply to and peer-review at least three other posts by next Wednesday 11:59PM UoPeople Time, and rate the posts and replies.

This week I would like for you to find and review a project, organization or park related to protecting biodiversity through sustainable development. Preferably one that is near where you live. This could be a local group or non-profit organization that works to protect biodiversity. It could be a park, natural reserve, or conservation area. Or, it could be something else that is related.

To learn more about biodiversity and sustainable development read [Why Biodiversity is Essential for Sustainable Development.](#)

Study the information you have found, then answer the following questions:

1. What did you choose to cover? Please list the main link to the park/reserve/organization.
2. Where is it located?
3. What is its mission?
4. Is there a biodiversity or sustainability development program in your local area that you are aware of? Describe the protected areas that are covered in such programs if any.
5. How are human actions related to the problems they are working on?
6. In what ways could You participate in this project/reserve/organization you are reviewing?

Any materials cited should be referenced using the style guidelines established by the American Psychological Association (APA).
