The abstract should not be more than 500 words. Please choose three questions from the list below and provide thoughtful responses to each. Engage in a respectful and constructive discussion with your classmates, sharing your insights, examples, and personal experiences.

2. How do coordination and subordination contribute to the structure and coherence of sentences and paragraphs?
3. Why is parallelism important in writing? How does it contribute to clarity and impact?
4. What factors contribute to the readability and flow of written communication in the article you chose?
