

Learning Guide Unit 6

Overview

UNIT 6: Connecting to Databases and Error handling in PHP

Topics:

- Introduction to databases and MySQL
 - Connecting to MySQL using PHP
 - Performing CRUD operations (Create, Read, Update, Delete)
 - Error handling in PHP
-

Learning Objectives:

By the end of this Unit, you will be able to:

1. Summarize how to establish connections between PHP applications and a MySQL database.
2. Explain how to perform CRUD operations to manage data dynamically.
3. Implement error handling techniques to identify issues in PHP.
