

Learning Guide Unit 7

Overview

UNIT 7: Advanced Topics in Server-Side Programming and Frameworks

Topics:

- Introduction to FastAPI (Python-based)
 - RESTful API design principles
 - Overview of server-side frameworks (e.g., Laravel for PHP)
 - Introduction to serverless architectures
-

Learning Objectives:

By the end of this Unit, you will be able to:

1. Interpret the significance of RESTful API and FastAPI development.
2. Explain the purpose and advantages of server-side frameworks like Laravel for PHP in accelerating web application development.
3. Analyze the basics of serverless architecture and its role in modern web development.
